

# [ Safety Information ]

- **Wire rope will fail if worn out, shock loaded, overloaded, misused, damaged, improperly maintained or abused.**
- **Always inspect wire rope for wear, damage or abuse before use.**
- **Never use a wire rope which is worn out, damaged, corroded or abused.**
- **Never overload or shock load a wire rope.**
- **Use the correct design factor for the application.**
- **Inform yourself: Read and understand the machinery manufacturer's handbook and guidance from the wire rope manufacturer.**
- **Refer to applicable directives, regulations, standards and codes concerning inspection, examination and rope removal criteria.**

**For further information please refer to the Brunton Shaw UK 'Product Safety' leaflet.**
